Title: Vesper Times-September

Author: News Room

~~~~~  
Vesper Times

Special Campaign Edition

September 2013  
~~~~~

It has been an honor to be one of the Founding Governors in the first term of service to the realm. The last three months have been filled with many magnificent experiences, sensational adventures and many new friends. From the onset of this endeavor, we did not really know what lie ahead; what was expected of us. So here we stand at the fork, gauging the paths ahead of us, to serve the citizens once again or choose another course.

I encourage you all to get involved, be a part of your community, this is just the start. "A journey of a thousand miles begins with one step "[Lao Tzu] and this has been a giant one I thank all the wonderful citizens who have supported me.

I wish to seek another term of office, and humbly ask that you vote for me. I will do my best to continue the path that we have forged here in Vesper.

My desire is...

- To see more involvement in the governing structure, to create a council that meets, discusses and acts on what the citizens feel most important.
- A planned tavern night every month, with a visiting bartender who may promote and introduce us to their spirits and wares.
- To be an ambassador among the other cities to promote good will, kinship and an open forum for role-play for the light at heart to the serious role-player alike.
- To promote the growth of Vesper in trade and population.
- To monitor the development of the stables promised by the King during the first counsel meeting.

I promise, to the best of my ability, to continue to cultivate Vesper, to encourage its citizens, and bring Vesper into revitalization that will inspire the realm.

I beseech thee...

Vote for Khaleesi

Tavern Night @ Marsh Hall

Bodhiharma, Vesper's Brewmaster planned a festive evening of Spirits in the Marsh Hall and a tour of The Busy Bees, which has been his makeshift distillery. He had hoped to debut his latest special blend of Mead to all. He issued a special

invitation to our EM,
Bennu who honored us
with his wit and humor
throughout the evening.

Unfortunately, Bo set
sail the evening before
and has not been seen.
In his absence, Hendall,
the proprietor of The
Serpent's Cross Tavern
plied us with a vast
selection of Yew's wine
as well as Bo's. It
was a recipe for
amusement with a raffle,
a lot of drinking and a
variety of personalities to
bring on the party!
Missing Person's Bulletin

Bodhiharma was last
spotted loading empty
kegs onto his ship, The
Satisfaction. He noted
only one town as a
destination; Nujelm. It is
believed that he had
other stops but did not
volunteer that
information. There
have been many that have
alluded to the ominous
presence of pirates in
our waters. Could
there be something amiss
in Nujelm that has gone
unnoticed? Vesper is
setting a \$ 10 million
dollar reward for the
safe return of Vesper's
said Brewster/Privateer
Bodhiharma. Many kind
souls have voiced their
support and volunteered
to search for our dear
friend. Bring Bo home
to Vesper!

Protection of the Great
Hart Act
The citizens of Vesper
requested that a
protection act be drawn
up and enacted which
lists the White Hart as
an Endangered Species at
the last counsel meeting.
There had been reports

of poaching activity on the outskirts of town after a sighting of the Great Hart. Governor Khaleesi appealed to the king that Vesper's as well as the surrounding town's duty to ensure the safety of this sacred creature by prohibiting any action that causes harm, killing, and any foreign trading of the "White Hart". Any offender shall be punished to the full extent of the law. A reward has been set of \$100,000 for any information leading to the arrest of these rustlers.

The King stood almost immediately and with a commanding tone set forth a detailed treaty declaring:

"By my command, King Blackthorn of Britannia, I hereby declare the White Hart under direct Ownership of the crown. Any sport hunting or general disruption of the creature is to be considered an act of Treason. Poaching of the White Hart shall be punishable by Forfeiture of Titles, Confiscation of Wealth...And Death."

Vesper's Open Trade Negotiations

We have also begun talks with the Emerald Trading Company and Vesper is their next scheduled stop, Wednesday, Sept 4. It is our plan to expand our trade route to include areas we have not explored as yet and search for the unique items our customers' request. We have been active in our quest by contracting more privateers, not only in Vesper but surrounding

areas. We hope to secure a contract in the near future after the election to further our relations with Emerald Trading Company.

Vesper Carnival- August 24th, 2013

Vesper had an awesome turn out for the Carnival! The Booths were all fairly active, from the Knife Throwing Extravaganza, to the Strongman's Challenge. The "Women-made" pool was very popular as was the Tavern! Many runs to restock the booze were made! The Kissing Booth, Raven's Pie Contest, Dead Man's Roulette, as well as Flair's Archery Contest were successful in bringing in gold for the town's trade deals! For those of you who joined in the fun that evening, it's been rumored that the Llama's Petting Zoo was by far most entertaining. As the carnival was to during the welcoming speech, a concerned Trinsic citizen approached with in a request to assist Trinsic in the docking of their ship! It was a priority as all the booze for the evening's festivities was on the ship.

Wood Beavils Warning
As the carnival preparations were to begin, the Vesper fleet was inspected head to toe! Much to their chagrin, wood shavings were found on many ships! Curiously lil mouse-like creatures scurried from the floors

beneath. A
suspicious-looking rat was
found during the
celebration blatantly
gnawing at the railings of
Vesper's Britannian Ship.

Would Magincia have
anything to do with
this!!!!!!!!!! All ships within
the Vesper area; docks
and island side alike,
please inspect your boats
for any signs of this
destructive pest!
